

Bar Solution

Bars & Niteclubs

Bars, Niteclubs, Venues, Restaurants, Hotels

A point of sale system can provide important benefits to a bar, helping to provide speedy transactions, accurate stock and security features that ensure you're receiving the correct amount of money for each transaction.

iTouch is fast, intuitive and simple to use. The touch screen interface helps reduce staff training times and operator errors. Transaction times are reduced and iTouch helps increase customer flow to maximize sales volume during peak periods.

Speed of Service

Bars are fast-paced, cash rich environments. Speed of service and reliability are key in these high turnover environments: whether it be a bar or a large venue, our EPOS software system facilitates excellent customer service even during the busiest trading periods.

Stock Control

iTouch POS offers you complete stock tracking or simple on button countdown each time a product is sold meaning staff have a constant visual record of current stock levels and you find out if you are losing profits to theft or drinks being given away for free.

Qty	Description	Total
1	PT GUINNESS	3.40
1	PERONI	3.10
1	BACARDI	2.50
1	COKE	1.80
Total:		£10.80

Security

To ensure each barman is ringing up drinks under their own name, secure employee login cards, dallas keys, fingerprints or even biometric vein readers can be used to identify staff members. Strong security features like these will help secure your cash and enable you to keep control of your business.

Increase Revenue

Retailers can run targeted promotions such as happy hours, multi-buys or mix & match offers like buy two get one for free, and maintain different price files for different outlets, days of the week, times of the day or special events helping promotions and increasing business.
