

# Fast Food Solution

## Fast Food

Fast Food Takeaways, Fish&Chips, Chinese, Indian, Pizzerias, Sandwich

A point of sale system can provide important benefits to a fast food business, helping to provide speedy transactions, accurate stock and security features that ensure you're receiving the correct amount of money for each transaction. iTouch is fast, intuitive and simple to use.

Our fast food solution provides speed and accuracy of ordering, ensures seamless processing of orders between the counter and the kitchen helping increase the efficiency of your operations.

## Speed of Service

Fast food outlets are fast-paced, cash rich environments. Speed of service and reliability are key in these high turnover environments: whether it be a high volume takeaway or corner fish&chip shop, our EPOS software system facilitates excellent customer service even during the busiest trading periods.

## Reduce Mistakes

iTouch uses kitchen printers or kitchen video screens to make sure items are registered on your system before being served, this way your staff must register a sale before it is prepared in the kitchen.

## Kitchen Video Screens

Kitchen video screens deliver food orders to the kitchen while eliminating the need for paper and print-outs. Collates and displays information directly from the epos or home delivery website. Makes orders clear and legible, speeds up service and reduces mistakes.

## Home Delivery

iTouch POS allows customers to quickly and easily place orders for delivery or collection, via phone call logger, website or mobile app. When an existing customer calls, their address details, their order history and notes appear on the screen, new customers can be added in seconds.

## Security

To ensure each user is ringing up correct items under their own name, secure employee login cards, dallas keys or even biometric fingerprints can be used to identify staff members. Strong security features like these will help secure your cash and enable you to keep control of your business.

## Real Time Reporting

Real-time reporting is available either at the EPOS terminal, Back Office PC or HeadOffice giving you and your management team key data about trading, staffing and stock information.
