

Point-of-Sale

iTouch POS Software

iTouch POS software is a powerful, yet user friendly point-of-sale software for use in the Retail & Hospitality industries.

iTouch is a complete solution that helps improve speed of service and maximise profitability. The EPOS system consists of a Point-of-Sale module on touch screen or handheld terminals to handle customer based operations and a comprehensive back-office to help control Stock, Cash management & day-to-day operations.

Features
