→ iTouch Time & Attendance

The iTouch POS Software Time & Attendance module captures clock in's and out's for each employee working within a business, employees can be point-of-sale users or non users such as kitchen staff, cleaners etc. If a POS user has not clocked in point-of-sale operations are not available. Employees can clock in using manual codes, swipe cards, proximity readers or biometric finger print or vein reader.

The system captures time and attendance information and calculates gross wages, manual adjustments or hourly overrides can be performed in the back office by authorised personnel.

Clock In	Clock Out	Time	Rate	Total
02/11/2013 18:00:00	02/11/2013 19:09:00	3:09	8.50	26.2650
02/11/2013 09:55:00	02/11/2013 17:09:00	8:14	8.50	69.1900
02/21/2013 19:04:00	02/21/2013 18:09:00	7:23	8.50	61.4550
Totals		18.46		156.9100

Time In	Time Out	Hours	Rate	Wages
02/11/2013 13:58:00	02/11/2013 22:02:00	8:07	8.50	68.59
